DETAILED ACTION

Allowable Subject Matter

1. Claims 1, 4-7, 10-19 and 28 are allowed.

2. The following is an examiner's statement of reasons for allowance:

The current invention (independent claims 1, 15, 16 and 28) discloses a network for connecting to a plurality of applications for handling different incoming communications, and at least one computer also connected to the network for receiving incoming communication information from the applications for generating a 3-D display. The display includes categorizing whether an incoming communications originated internally or externally.

McDonough (US 6,115,693) teaches handling incoming communications in a call center. McDonough fails to teach determine whether incoming call, including telephone and voicemail, are internal or external callers, since a call center only monitors external calls (coming from an external source), there is no motivation modified the McDonough's reference to include internal telephone calls and voice messages in a 3-D graphical representation of incoming calls.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2645

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
